Emdeon AssistRx Accounts Receivable Solutions

Third-party accounts receivable made easy

Emdeon AssistRx helps pharmacies better manage their critical third-party receivable assets through intelligent automation of accounting tasks. AssistRx captures paid claims automatically as they are processed through the Emdeon switch and applies payments from carrier payment files and paper remittance advices, saving pharmacies time and money.

Flexibility can enable significant A/R reductions

AssistRx keeps receivables more current and accurate through automated value-added processes that can be customized to resolve unidentifiable, late, partial and duplicate payments. These services include:

- Cash suspension
- Unapplied cash processing
- Partial payment processing

A pharmacy is able to customize the automation of its accounts receivable processes using numerous configuration options, ranging from payment processing to automatic write-off limits.

Payment consolidation

For clients who maintain their own receivables, Emdeon Business Services can streamline the accounts receivable process by preparing a single-format payment file from carrier payment files and paper remittance advices.
