

## Emdeon ERA Manager

---

Convenient Centralization

Streamlined Workflow

State-of-the-Art Technology

More Payer Connections  
Than Anyone in the Industry

### A better way to manage remittance

The key to making remittance truly useful is to make it clear, understandable and easy to manage. Emdeon ERA Manager serves this purpose by automatically interpreting Electronic Remittance Advice (ERA) and translating payer 835 codes into human-readable formats from government and commercial carriers. All ERAs are stored in one highly organized and easily accessible database for later review. ERA can be sorted, searched and filtered to meet a world of provider and patient needs.

### Offer providers simplified ERA management

Four simple functions (Search, View, Print and Retrieve) give providers the ability to quickly find and use remittance advice. Emdeon ERA Manager can also arrange complex remittance data into easy-to-use Crossover Reports, Denied Reports, Fiscal Year Reports, Aged-Claim Reports and Charge Master Reviews, that all increase efficiency.

### A powerful, flexible solution

Perhaps the most significant strength of Emdeon ERA Manager is its direct connection to our industry-leading list of payers. This gives your providers the flexibility they need to interpret remittance advice from almost any government or commercial payer. Your provider clients will notice the increases in efficiency and productivity that result from having one centralized, organized database for all of their remittance advice. Emdeon ERA Manager can be offered to providers as a stand-alone online solution, or it can be integrated within your products and services.

Automated and Organized  
Electronic Remittance Advice

At Emdeon™, we're here to help. To transform the way you run your healthcare business today, call us at **877.469.3263, Option 2** for a complimentary review.

## Add Emdeon Denial Manager and get to the root of denied claims

---

Emdeon ERA Manager is an incredibly effective tool to automatically interpret payer codes, payment labels, deadlines and remittance. And yet, it becomes even more powerful to providers when combined with the special analytical tools of Emdeon Denial Manager. Emdeon Denial Manager adds to the capabilities of Emdeon ERA Manager by organizing large volumes of recent and archived remittance specific to denied or underpaid claims. Its power lies in its ability to reveal the long-term trends that cause repeated denials. Providers can determine the root causes and process breakdowns that lead to denials and can establish corrective steps to prevent future revenue loss or delay.

## Features

- Single, automated ERA analysis solution for virtually all payers
- Powerful reporting capabilities
- Easy-to-use remittance inventory
- Connectivity to the largest payer network in the industry
- Adaptable integrated or stand-alone solution
- Optional denial management and analysis tools

## Benefits

- Automation that saves time and reduces errors
- Improved patient information
- Less paperwork, faster reimbursement
- Accelerated secondary billing turnaround
- Exposure of root causes and trends that lead to denials
